

MOLDOVA AT A GLANCE

- Simplified ministry of health approval process and good clinical practice guidelines.
- Direct ship-to-site option is available for small or urgent shipments.
- Sites serve as importers of record, but depot assists with import permit application process.
- Site-specific import permit issued for each shipment.
- Same-day delivery of ambient or temperature-controlled products after customs clearance.
- No customs duties on investigational products.
- Moderate market saturation allows for competitive trials.

IMP LOGISTICS CAPABILITIES IN MOLDOVA

Moldova, home to approximately 3 million people, is an EU member state with an agricultural economy. Its legislative guidelines were developed in alignment with EU regulations. As a new presence in the clinical research industry, Moldova offers an excellent strategic location, motivated investigators, and strong data outcomes.

- In operation since 2015, with dynamic growth potential.
- Located in Chisinau, the capital of Moldova.
- Pharmaceutical license in place.
- Depot service provides better inventory control but direct-to-site delivery is available.
- Full range of regulatory support to ensure timely receipt of site-specific import licenses.
- Same day delivery of ambient or temperature controlled products after customs clearance.
- Services include regulatory support; import/export license applications; Customs clearance coordination; storage in all temperature zones; distribution, courier, and logistics; comparator sourcing; equipment purchase/lease; biosample export; and unused drug return and verified destruction.
- Overall storage capacity of 70 m³.
