Mit Collomix auf die Pole-Position

Compact mixer TMS 2000

Mobile mixer ideal for mixing prebagged materials

-  Robust Mixer ready-mixed goods supplied in sacks upto 80 l litres (3-4 sacks)
-  Mixing material: For all types of mortar, plaster, screed and concrete (-16 mm)
-  High torque stationary mixer with low speed rotating three arm mixing tool for an intensive and powerful mixing
-  Slide opening for emptying the mixing drum into a wheelbarrow or mixing tub
-  Safety cut-out
-  Fold-down platform; Stable
-  Practical loading aide
-  Narrow spaces are no obstacle
-  Easy to clean

Screed

Plaster

Syntetic resign screed

Lightweight masonry mortar

Concrete

Paving joint grout

Material (weight without added water):

Slightly moist concrete with grain size of -16 mm	-
Concrete with max. grain size of 16 mm	+
Cement screed	+
Polymer impregnated screed (2-component, 0.6/1.2mm)	+
Cement mortar	+
Plaster mortar	+
Light masonry mortar	+
Stucco mortar	+
Cement plaster	+
Gypsum plaster	+
Loam plaster without fiber	+
Heat-insulating plaster	+
Air-entrained light exterior plaster	+
Natural stone bedding plaster mortar	+
2-component pointing plaster mortar (-1,2 mm)	+
Center bed mortar	+
Soft/free-flowing screed types	-
Soft/free-flowing mortar types	-
Thin-bed mortar, adhesive for bricks	-
Creamy plaster types	+
Adhesive grouting compounds as plaster base	-
Tile cement	-
Pointing mortar	+
Joint pouring compounds	-
Leveling compounds	-
High-performance mortar (Flowstone)	+
Plastic-modified mortar systems (PCC / ECC)	-
Steel fiber mortar	-

TECHNICAL DATA:

Mixing volume:	max. 80 l.	Dimensions:	720x690x1190 mm
Size mixing container:	70 l	Item no. TMS 2000:	37110
Mixer output:	2,0 kW / 230 V	Item no. mixing tool:	70138
Mixer rotational speed:	42 rpm		
Height of lower edge of ejection chart:	630 mm	Accessory:	
Weight:	104 kg
