

COLOSSUS BETS BETTING RULES

1. PLACING YOUR BET

Bet Acceptance

1.1 Ladbrokes acts as an agent for Colossus Bets and all bets ("**Bets**") are placed directly into Colossus Bets' pools. In circumstances where bets do not reach the pool relevant Ladbrokes customers ("**Players**") will have their stakes refunded and neither Ladbrokes nor Colossus Bets will be liable for any loss of winnings that would have been due had the bet reached the pool. Any queries you have in relation to your betting activity into Colossus Bets' pools should be addressed to Ladbrokes. To the extent that it is unable to resolve your query, Ladbrokes will contact Colossus Bets. If there is any conflict between any provision in these Betting Rules and the equivalent terms on the colossusbets.com site the terms on the colossusbets.com site will prevail.

1.2 It is your responsibility to check that the Bet instructions you submit are correct before confirming the Bet. Colossus Bets reserves the right to refuse placement of any Bet for any reason.

1.3 Where there is any disagreement as to the details or status of the Bet or wager, Colossus Bets' records will be the primary source of evidence for the details/status of the Bet.

1.4 Colossus Bets may, in its sole and absolute discretion, decide to suspend betting on a pool at any time. Colossus Bets also reserves the right to void a pool in its entirety or any Leg(s) or Bet(s): to correct any obvious errors; to maintain integrity and fairness in the Colossus Bets pools; if there has been a change to the format or events within a pool; or if it believes any Bet has been placed in contravention of these Terms of Play.

1.5 Players bet on the outcome of multiple related events which are pre-selected by Colossus Bets ("**Legs**") and decided over a set period of time ("**Game Period**").

1.6 The Legs in any Game Period shall be selected by Colossus Bets acting at its sole discretion.

1.7 Players may choose to place one or more Bets, each consisting of a minimum of at least one selection in each Leg (e.g. Richmond to beat Collingwood by 1-9 points, Hawthorn to beat Melbourne by 10-19 points, Fremantle to beat Carlton by 40-49 points etc). Each Bet is identified with a unique reference number when the Bet is accepted.

1.8 For any given Leg a Player may make one or more selections of alternative results. For example, if you make two selections in one leg and one selection in all other Legs, this would constitute two Bets. Each Bet has a full unit cost (for example \$1), depending on the pool type, and the Colossus Bets bet placement engine will add up the amount of lines multiplied by the stake per line to show the total amount staked on the Bet.

1.9 Unless stated otherwise, all Bets are placed for the correct result in the ordinary passage of play according to the match officials including stoppage time, but excluding any extra time, golden point period, penalties or similar (if they occur).

Currency and Pool Units

1.10 The base currency for all Colossus Bets pools is Sterling (GBP). This means that certain data (including but not limited to Total Pool Tickets, Pool History, Remaining Units and Winning Tickets) may be displayed on the Site in Sterling values (where indicated) otherwise all stakes and prizes will be displayed in the currency of your Ladbrokes account (normally AUD).

1.11 In specific pools Colossus Bets gives players the option to place Bets at a fraction of the full unit cost predetermined for the pool. For example, if the full unit cost in a pool is \$1 Colossus Bets may enable players to place Bets for a fraction of this full \$1 unit cost. Fractional Bets like this will give the Player a corresponding entitlement to any dividends payable at the point of pool settlement. For example, if a Player places a Bet for 20 cents in a pool with a full unit cost of \$1, the Player will be entitled to a one-fifth (20%) share of any dividend payable in this pool (including in relation to any Bonus Pool, if applicable). In certain pools Colossus Bets may also apply a maximum Bet stake at its discretion.

Settlement, Abandonments, Postponements and Errors

1.12 Subject to the other provisions in this clause 1 below, all Bets will be settled based on the official result of the relevant event regardless of any subsequent disqualification or amendment to the result.

1.13 In the event of any uncertainty about any official result, Colossus Bets reserves the right to suspend settlement of any pool until the uncertainty can be resolved to its reasonable satisfaction.

1.14 Colossus Bets reserves the right to reverse the settlement of a pool if it has been settled in error (for example, a human or technical error). If Colossus Bets resettles a pool, this may lead to amendments being made to Players' Account balances to reflect changes in pool settlement.

1.15 Notwithstanding anything else in these Terms of Play, once a pool has been settled for 72 hours, its settlement will be considered full and final.

1.16 If a match is not completed (i.e. the full period of play according to the match officials, plus any stoppage time) within 3 days of its scheduled start date, it will be considered a void Leg for the purpose of all pools in which it has been included.

1.17 If a match starts but is later abandoned or postponed but is completed within 3 days of the scheduled start date, it shall be considered a valid Leg for all pools in which it is included unless the match is restarted from the beginning. If the match is restarted from the beginning then clause 1.16 above applies.

1.18 Notwithstanding the provisions above, in circumstances where Colossus Bets reasonably believes that a match (whether started or not) will not be completed within 3 days of its scheduled start date, Colossus Bets reserves the right to declare the match to be a void Leg at that point for the purpose of relevant pools (irrespective of whether the match is ultimately completed or not within 3 days of its scheduled start date).

1.19 The voiding of any Bets or Legs as described above in relation to abandoned/postponed fixtures will not apply to Bets/Legs unconditionally determined at the time of abandonment/postponement. For example, if Colossus Bets offers a Leg based on the score at half-time in a match, the abandonment of the match at any point after half-time is not relevant to the completion of the Leg in question.

1.20 References above to a particular number of 'days' shall mean the end of the day local time after the expiry of the specified number of days. For example, if a match is scheduled to be completed on 15th November when a pool is loaded, then the rule that allows the match to be completed within three days after the scheduled completion date would mean that the deadline for completion of that match would be 23.59:59 local time on 18th November.

1.21 If any pool is decided on fewer than the advertised number of Legs, then any Bonus Pool, guarantees or rollovers otherwise applicable to the pool, will be disappplied. In such circumstances Jackpot Pool and any Consolation Pool dividends will be declared based only on the net stakes of tickets purchased for that specific pool, although Colossus Bets reserves the right to apply a substitute guarantee to any such pool.

1.22 Provided at least one Leg of the pool takes place, Jackpot Pool and Consolation Pool dividends will be declared. If no Legs of a pool are completed, all Bets in that pool will be void and stakes will be refunded. This excludes stakes rolled over from previous pools, which will be rolled over for use in future pools as determined by Colossus Bets.

1.23 If the scheduled venue for a Leg is changed after a pool has been loaded by Colossus Bets, the Leg will be void only if the new venue is a home ground of the original away team. For matches played at a neutral venue bets will stand regardless of which team is listed as the home team.

1.24 Colossus Bets accepts no responsibility for typing, transmission and/or evaluation errors. Colossus Bets also accepts no liability for incorrectness or incompleteness or inaccuracy of the information provided via the Site, including (without limitation) any clock counting down to the beginning of the next passage of play in a pool, any live scores and results.

2. ORGANISATION OF THE POOLS AND ASSOCIATED DEDUCTIONS

2.1 All Bets are pool bets where winnings are determined by reference to the money staked and the number of correct entries in the pool.

2.2 Bets which correctly predict scores and/or outcomes of all of the Legs will win a share of the Jackpot Pool, and where applicable the Consolation Pool and Bonus Pool.

2.2.1 "**Jackpot Pool**" - Players who select the correct result (being the **correct score** or **correct points supremacies** in score/points supremacy pools and the **correct outcome** in Home/Draw/Away pools) of all the Legs of a pool will win a share of the Jackpot Pool.

2.2.2 "**Consolation Pool**" – In a correct score pool, Players who select the correct outcome (Home win, Draw or Away win) of each match (but not the correct score of each match), shall share the Consolation Pool.

2.2.3 "**Bonus Pool**" - Winners of the Jackpot Pool (provided they have not fully cashed out their ticket; see the rules on 'cash out' below), shall be asked to select the score/points supremacy of an additional match selected by Colossus Bets and those who select the correct score in such additional match shall share the Bonus Pool.

2.3 The Jackpot, Consolation and Bonus Pools will grow and rollover independently depending on whether they are won. Colossus Bets will endeavour to apply any such rollovers to the next equivalent pool (for example, an English Premier League Pick 6 pool rollover will typically be applied to the following week's English Premier League Pick 6 pool), but rollovers will be applied by Colossus Bets acting at its sole discretion.

2.4 Player stakes are allocated to each pool and each pool is subject to deductions, in accordance with the following:

2.4.1 In games which include Jackpot, Consolation and Bonus Pools, stakes shall be allocated as follows:

- 60% of stakes shall be allocated to the Jackpot Pool.
- 20% of stakes shall be allocated to the Consolation Pool.
- 20% of stakes shall be allocated to the Bonus Pool.

2.4.2 In games which include Jackpot and Bonus Pools, stakes will be allocated as follows:

- 80% of stakes shall be allocated to the Jackpot Pool.
- 20% of stakes shall be allocated to the Bonus Pool.

2.4.3 If a game is decided on fewer than the advertised number of Legs, then the Bonus Pool will not apply, and the stakes ordinarily allocated to the Bonus Pool will be allocated to the Jackpot Pool, so that the revised Jackpot Pool allocation will be 80% of total stakes (or 100% of total stakes if the relevant game had no Consolation Pool). This excludes stakes brought forward in rollovers from previous weeks' Bonus Pools stakes, which will rollover directly to a subsequent Bonus Pool as determined by Colossus Bets.

2.4.4 For other games 100% of stakes shall be allocated to the Jackpot Pool and no other pools shall be available.

2.5 Unless stated otherwise, each pool is subject to a deduction of 30%. The net amount in each pool is 70% of stakes and the allocation of stakes to the different pools referred to above is before this deduction.

2.6 Players who qualify for the Bonus Pool by winning the Jackpot Pool (and who have not cashed out the relevant ticket in full) will need to make an additional correct score (or points supremacy) prediction for a subsequent match selected by Colossus Bets at its discretion ("Bonus Leg"). All Players who correctly predict the score/points supremacy of the Bonus Leg shall share the Bonus Pool.

2.7 All Colossus Bets dividends will be rounded down to the nearest one cent. For example a dividend of \$350.49764 will be rounded down to \$350.49.

3. ENTERING THE BONUS POOL

3.1 If you are successful in a Jackpot Pool (and have not cashed out your ticket in full), you will be entitled to enter the corresponding Bonus Pool to the extent that one is offered. One Bonus Leg selection will be allowed for each winning line in a Jackpot Pool winning ticket.

3.2 If eligible for the Bonus Pool, you will need to contact Ladbrokes on 1800 LADBROKES or 1800 523 276, provide details of your Jackpot Pool winning ticket and you will be given a unique code, which is required to make your Bonus Leg selection. You must complete this registration process within 72 hours of the end of the final match of the relevant Jackpot Pool. Colossus Bets may require you to go through certain security procedures prior to accepting your registration/selection.

3.3 The Bonus Leg will be identified and published by Colossus Bets at least 24 hours prior to its scheduled start – typically midday on Friday UK time for a weekend match or 24 hours prior to the scheduled start of a midweek football match such as a Champions League fixture.

3.4 Once your Bonus Leg selection had been made, it cannot be altered unless the Bonus Leg is voided in accordance with clauses 1.16-1.17 above. In such circumstances Players will be required to re-enter a selection for the rescheduled event or an alternative event, as determined by Colossus Bets.

3.5 Any qualifying Player who does not, for whatever reason, register for the Bonus Leg by the applicable cut-off time described above or who fails to make a selection by the advertised cut-off time (which will be 1 hour before the scheduled start of the match chosen as the Bonus Leg), will be automatically allocated a 1-1 draw in the relevant match or (in games which are based on points spreads), a win for the home team by the smallest winning margin typically offered on the relevant Jackpot coupon.

3.6 Where Colossus Bets owns (or part-owns) a ticket having acquired it through the cash out mechanism described below, and such a ticket contains a Jackpot Pool winning line, Colossus Bets shall have the corresponding right to enter the Bonus Pool. In such circumstances Colossus Bets will nominate (and publish on its website) its Bonus Leg selection 2 hours prior to the scheduled commencement of the relevant event (i.e. an hour before any other Players are required to nominate their Bonus Leg selections). Where Colossus Bets owns all or part of more than one Jackpot Pool winning ticket as described directly above, it shall have the right to make a Bonus Leg selection in respect of each such ticket.

3.7 Where you have cashed out a portion of a Live Ticket, you will be entitled to make a Bonus Leg selection in the usual way, as described above, but your potential Bonus Pool dividend will be by reference to the fraction of the original ticket you retain.

3.8 Neither Colossus Bets nor Ladbrokes accepts any responsibility whatsoever in relation to Players seeking to cooperate with each other to improve their chances of winning any prizes or making any cash outs. Players enter into any such arrangements entirely at their own risk.

4. CASH OUT

4.1 Colossus Bets may at any point during the Game Period offer Players the opportunity to cash out the whole or a portion of a ticket which may still, potentially, contain a winning line ("**Live Ticket**").

4.2 The availability of cash out offers can never be guaranteed and during periods when typically cash out offers would be available (for example after the conclusion of one Leg in a pool and before the commencement of the next Leg), cash out offers may be unavailable for technical, operational or any other reason.

Pricing a Live Ticket

4.3 In its offer to purchase a Live Ticket ("**Offer**") Colossus Bets shall provide to the Player an offer price to purchase any 10% increment of the Live Ticket up to 100% ("**Offer Price**").

4.4 The Offer Price shall be determined by Colossus Bets acting at its sole discretion.

4.5 Offer Process

A. Following receipt of an Offer, the Player shall have the period between the making of the Offer by Colossus Bets and the lapsing of the Offer to decide whether to ACCEPT the Offer (**B**) or REJECT the Offer (**C**). Colossus Bets reserves the right to revise or withdraw an Offer that has not been accepted. All Offers automatically lapse on commencement of the next period of live play.

B. If the Player accepts an Offer for 100% of a Live Ticket all rights in the Ticket will be assigned to Colossus Bets and the Offer Price shall transferred into the Player's Account as soon as is reasonably practicable. See clause 4.7 below on selling a portion of a Live Ticket.

C. If the Player rejects an Offer (or takes no action in respect of the Offer) the Player will retain full ownership of the Live Ticket and accordingly retain his/her chance to win or share the relevant prize funds.

4.6 For the avoidance of doubt, once a Live Ticket is fully cashed out you will no longer be able to win any amount in respect of that ticket. If any Bets on that ticket are ultimately successful, Colossus Bets will be entitled to the relevant

Jackpot Pool dividend (together with any Consolation Pool dividends and Bonus Pool rights) that you would have been entitled to had you not sold the Live Ticket.

Cashing out a portion of a Live Ticket

4.7 Where a Player accepts an Offer from Colossus Bets to cash out a portion ("**Portion**") of a Live Ticket rather than the full 100% of the Live Ticket, all rights in the Portion will be assigned to Colossus Bets and the Offer Price will be transferred into the Player's Account as soon as is reasonably practicable.

4.8 The Player shall retain ownership of the remainder of the Live Ticket and if the Live Ticket is successful the Player will be entitled to such percentage of the amount of the Jackpot Pool (together with the same percentage of the Consolation Pool and rights in the Bonus Pool) applicable to his/her retained share of the Live Ticket.

Worked Example:

Player A cashes out a 20% Portion and subsequently a 30% Portion (so 50% in total) of a full unit Live Ticket. The Live Ticket is a correct prediction of the scores of all Legs in the Game Period, which proves to be a winning Bet for the purposes of the Jackpot Pool and contains two winning Consolation Pool lines. There is one other full unit Jackpot Pool winning Bet in the Game (held by Player B) and a total of 100 Consolation Pool winning lines.

The net Jackpot Fund holds \$1,000,000, the net Consolation Fund holds \$50,000 and the net Bonus Fund holds \$2,000,000.

Jackpot Pool: $\$1,000,000 \div 2$ (as 2 winners) = dividend of \$500,000

50% of \$500,000 (Player A's retained share in Live Ticket) = \$250,000

Player A's Jackpot Fund share: \$250,000

Consolation Pool: $\$50,000 \div 100$ (as 100 winners) = dividend of \$500.

50% of \$500 (Player A's retained share in Live Ticket) = \$250, but Player A has two Consolation Pool winning lines so $\$250 \times 2 = \500

Player A's Consolation Fund share: \$500

Bonus Pool: \$2,000,000

Player A has right to make a Bonus Leg selection to try to win a maximum of an additional \$1,000,000, being 50% of the Bonus Fund. Player A selects the correct score in the Bonus Leg (and Player B selects an incorrect score).

Player A's Bonus Fund share: \$1,000,000

In the above example if Player B also selected the correct Bonus Leg score (and Colossus Bets chose an incorrect score) there would be 1.5 winning Bonus Pool units. This would mean that Player A, holding 0.5 winning Bonus Pool units (one third of the total winning units), would receive a Bonus Fund share of £666,666.66 (i.e. one third of the Bonus Fund). If Colossus Bets also chose the correct score, there would be 2 winning Bonus Leg Units, so Player A (with one quarter of the total winning units) would win \$500,000.

4.9 Where an Offer which has been accepted by a Player (in full or in part) has been made by Colossus Bets based on erroneous information (for example based on a result being a win for the home team by 4 points when it was in fact a home win by 14 points) or as a result of a technical failure, Colossus Bets reserves the right to void any such Offer or to adjust the cash out amount payable. Any such adjusted cash out payment will be based on the accurate score/result at the time of the erroneous Offer being made and the consequent revised value of the relevant ticket at that time.

4.10 Where an Offer which has been accepted by a Player (in full or in part) has been made by Colossus Bets on the basis that all scheduled Legs in a pool will be completed (and therefore any guarantee and rollovers are factored into such an Offer), but all such Legs are not completed, Colossus Bets reserves the right to adjust the cash out amount payable. Any such adjusted cash out payment will be based on the revised value (given the amounts available to be won in the applicable pools and the revised likelihood of success) of the relevant ticket at the point the Offer was made.

4.11 Colossus Bets may at its discretion make an Offer for a Live Ticket which already contains a Jackpot Pool winning line and therefore has an entitlement to make a Bonus Leg selection. Any such offer for the right to make a Bonus Leg selection will not be made in the automated manner as described in the cash out section of these Betting Rules, but will instead be made (and concluded) in a manual process as determined by Colossus Bets.
