

UnitedGP

**THE ULTIMATE
RACING MANAGER**

YOUR SPOT AT THE PITWALL

With a refined strategy to the victory: Optimize your race car to perfection as the manager of your racing team and compete with other player from around the world in live races - right from the pitwall!

Take on the role as the crew chief at the place of action: right at the pitwall. With permanent optimisation of the race car, the right setup and most importantly with the right strategy, you can stand out against players from around the world and lead your team to the top.

With increasing success in the races your options for producing better parts increase, so do the detailed settings you can choose throughout the game. Real hardcore fans will experience the same feeling of precision and love for details in UnitedGP, that they are accustomed to and admire in the real teams in the premier class in motorsports.

Thrilling live races with up to 20 players (PvP) and world-wide match making including ranking tables are what

The race car setup can be adjusted in detail: Front wing, rear wing, suspension, balancing...

make this manager game so extraordinary. Through the use of an especially high-performance server, enough players are available at any time, day or night, to experience exciting duels on the race track. The position of each car is shown in real time and interactions possible even during the race, like adjusting the pit stop strategy or adding Power-Ups.

The manager should never lose sight of the setup though, as there are more than 150 different components that can be produced and installed.

Components wear out and new ones are unlocked, so constant component management is crucial.

With a total of over 80 player levels, five different racing classes and more than 25 individual race tracks that fluctuate daily, a lot of variety and challenges are waiting for both crew chief and material. And as if this wasn't enough to think about yet, changing weather conditions add another element for cars and drivers. UnitedGP is cross-platform playable.

Short: A challenge like in the daily life of a crew chief!
