

ENVIRONMENT POLICY

Sydney Airport is Australia's major gateway to the world and our nation's premier airport. The airport connects Sydney – Australia's only global city – and NSW – Australia's most populous state – to other cities and regions across Australia. It provides access to all the benefits of the global aviation network.

Being only 8km from the Sydney CBD, and located on the shores of one of our most significant waterways - Botany Bay - Sydney Airport Corporation Limited (SACL) recognises its responsibility to manage Sydney Airport in a sustainable manner for the benefit of people in Sydney, NSW and Australia. This responsibility extends to all our staff, airport tenants and other stakeholders.

In recognition of our vision, SACL is committed to the following environmental principles:

- **Sustainability:** by adopting measures to conserve natural resources and energy; reducing impacts on the environment; and considering the ecological, social and economic implications of our actions.
- **Knowledge and Awareness:** by developing and maintaining a broad-based understanding of the sources of environmental impact of our operations, both on and off the airport, using, where necessary, research, education and awareness training.
- **Continual Improvement:** by striving to continually improve our environmental performance.
- **Community Involvement:** by developing and maintaining strong links with our local community and all key stakeholders involved with Sydney Airport.
- **Pollution Control:** by implementing pro-active and effective measures to minimise pollution and reduce environmental impacts.
- **Compliance:** by complying with all applicable environmental laws, policies and standards and, where possible, exceeding the requirements imposed by them.
- **Systematic Management:** by developing, implementing and maintaining an Environmental Management System, rigorously assessing the environmental impacts of development proposals, and implementing comprehensive environmental management strategies and plans.

All employees and stakeholders are encouraged to become actively involved in the environmental management of Sydney Airport.

Kerrie Mather
Managing Director & Chief Executive Officer
