375 mm

Template
Golf flag
Size: 590 x 345 mm

You can use this file as an extra layer in your layout programme.
Do not forget to make our template invisible or to delete it before you save your final PDF, or JPG with high a resolution.

Format size to be submitted (620 x 375 mm)
Finished size + 15 cutting margin (bleed)
It is advised to let the background and all of the images run through to this edge. This ensures that your printing can be cut needly and this prevents a white edge around your print.

Finished size (590 x 345 mm)
Your printing will be cut on these dimensions. This format will be the final size and will be delivered to you.

Safe zone (20 mm)
Please make sure you keep your important images and text 20 mm clear of the cutting edges. This prevents a possible cut in the important parts, or that the images are so close to the edge that it results in a sloppy design.
NOTE: **Please keep 125mm on the left hand side of your design available to be wrapped and stitched around the flag pole. Make sure your background continues all the way to the edge of your design whilst your important photos or text stay at least 125mm from the edges on the left.**
